ReturnData

farconfig.cveventhandling.
CVEventHandler.updateAverages

```
graph LR; A[farconfig.cveventhandling.CVEventHandler.averagesClear] --> C[farconfig.cveventhandling.CVEventHandler.updateAverages]; B[farconfig.cveventhandling.CVEventHandler.handleControlBox ReturnData] --> C;
```

The diagram illustrates a call flow where two different methods from the `farconfig.cveventhandling.CVEventHandler` class are invoked by a common target method, `farconfig.cveventhandling.CVEventHandler.updateAverages`. The target method is highlighted in a grey box, while the source methods are in white boxes. Blue arrows indicate the direction of the calls from the source methods to the target method.
