

farconfig.pluginhandler.
PluginHandler.addPlugin

farconfig.pluginhandler.
PluginHandler.removePlugin

farconfig.pluginhandler.
PluginHandler.renamePlugin

farconfig.pluginhandler.
PluginHandler.isSelectionPlugin
Instance

```
graph LR; A[farconfig.pluginhandler.  
PluginHandler.addPlugin] --> D[farconfig.pluginhandler.  
PluginHandler.isSelectionPlugin  
Instance]; B[farconfig.pluginhandler.  
PluginHandler.removePlugin] --> D; C[farconfig.pluginhandler.  
PluginHandler.renamePlugin] --> D;
```

The diagram illustrates three separate method calls on the left, each with a blue arrow pointing to a single, larger gray box on the right. The gray box represents a shared instance of the PluginHandler class. The three methods being called are addPlugin, removePlugin, and renamePlugin, all from the farconfig.pluginhandler namespace.
