

addDefaultFARSingle

findLocalOrVariableOutput

getAssembly

```
graph LR; A[addDefaultFARSingle] --> C[getAssembly]; B[findLocalOrVariableOutput] --> C;
```

The diagram illustrates a flow where two separate components, 'addDefaultFARSingle' and 'findLocalOrVariableOutput', both point to a single target component, 'getAssembly'. The boxes for 'addDefaultFARSingle' and 'findLocalOrVariableOutput' are white with black borders, while the 'getAssembly' box is gray with a black border. Two blue arrows originate from the right side of the first two boxes and point towards the left side of the 'getAssembly' box.
